Coronavirus (COVID-19) Update

Updated 30 November 2021

The AIK Ltd National Executive Board intends this article *as a guide* for the membership; and cannot, nor will not direct members as a professional body (with its own Constitution, By-Laws including Code of Ethics and Conduct) to make a decision pertaining to their health and wellbeing such as a vaccination. It is clearly not the role of the AIK Ltd to advise regarding the member's personal decision in this matter and the result or outcome of the member's personal choice. The AIK Ltd National Executive Board would like to support your independent research as it is **continuously changing**, and the board recognizes that this can cause you the member (and if you are a trainer, your students) understandable stress and confusion. Please reach out to your support networks such as your Mentors/Peers/Trainers/Teachers for additional connectiveness with your concerns.

When doing your research, **we must all be attentive in monitoring government resources**, therefore all AIK Ltd members please continue to stay up to date with the information provided on your respective local state and territory websites for directives, hotspot information and travel restrictions.

Additionally, the AIK Ltd recommends members ensure they are acquainted with best practice standards around infection control. The government has infection control training and this is recognised as CPE for the member. [COVID-19 infection control training | Australian Government Department of Health](#)

An AIK Ltd member may wish to contact their insurance provider to obtain direct information pertaining to your clinical practice or training of students in the state you are located or if the school has trainers connected to a school located in other state locations such as a branch of their training facility.

A reminder to all members that Kinesiologists fall under the banner of the 'unregistered' healthcare worker. Kinesiologists are not registered with AHPRA.
